How To Crop an Image Using Lunapic

wishpond.com

What is Lunapic?

Lunapic is an awesome free online photo editor.

It allows you to easily resize, crop, filter, animate, or add effects to any picture.

wishpond HOW-TO

First, head to www.lunapic.com

wishpond HOW-TO

1. Choose how you're going to upload your image. You can choose an image from a website, Facebook, Picasa, Dropbox or your personal files.
2. If your image is from a website, copy the image URL and enter it in the URL field. Then press "Go."

wishpond HOW-TO

I chose to upload my snowboarder picture directly from my computer desktop.

By selecting “More Upload Options” you can choose an image from Dropbox or your computer files.

wishpond HOW-TO

To upload an image from your computer:

1. Choose your file
2. Select an image size
3. Then hit “Upload Now!”

The screenshot shows the 'Upload Multiple Images' interface. It features a list of nine file selection rows, each with a 'Choose File' button and a text field. The first row is pre-filled with 'Snowboarder.png'. Below this list is a dropdown menu for 'Animate Images' and an 'Upload Now!' button. A size selection dropdown is open, showing various dimensions with '920x1380' selected. At the bottom, there are social media sharing options and a 'Save To:' section.

Upload Multiple Images Upload Images:

1. Choose File Snowboarder.png
2. Choose File No file chosen
3. Choose File No file chosen
4. Choose File No file chosen
5. Choose File No file chosen
6. Choose File No file chosen
7. Choose File No file chosen
8. Choose File No file chosen
9. Choose File No file chosen

Animate Images

Size 920x1380

400x600
500x750
600x900
700x1050
800x1200
900x1200
1000x1500
1200x1800
1400x2100

Big Images take more time to upload, please be patient.
More images can be added later with "Animation Frames"

wishpond HOW-TO

Now that your image is uploaded, select “Crop.”

wishpond HOW-TO

Drag the selector tool over the part of the image you would like to crop.

If you want to crop the picture into a specific shape like a circle, select “Advanced Crop.”

wishpond HOW-TO

1. Next, choose the shape you want to crop your picture into.

2. Then select the area you want to crop with the selector tool.

3. Click "Crop" and your image will be cropped.

wishpond HOW-TO

Your image will now appear in the cropped state.

You can then save the image to your computer, Imgur, Email, Tumblr, Picasa, Facebook, or your own website.
